1. CLASSIFICATION

There will be only one class for the 2010 Central Indiana Track Show Association season.

2. PERFORMANCE REQUIREMENTS

Bands will move to the ready line and then to the starting line upon receiving a signal from the starter. When the timer drops the flag indicating the end of the preceding band's performance, the next band in line will have two (2) minutes to stage. The announcer will begin his introduction with one (1) minute left in the staging period. Performances must be a minimum of four (4) minutes and a maximum of six (6) minutes in length. The band director or a person designated by the band director is responsible for informing the timer when the show is complete. The band will then have an additional one (1) minute to exit the performance area. At the end of the one (1) minute exit period, all playing members and appendage units must be across the finish line. All audio and visual effects **must be made by performing members** and take place within the performance area and within the performance time limit (sideline percussion instruments and players (pit percussion) may be placed directly behind the performance area (back sideline) as long as space allows). All organized sound must stop by the end of the one (1) minute exit period.

3. MARCHING AREA

The seating area and the judges will be to the right of the bands.

The distance from the starting point to the finish line (performance area) is one hundred yards. The width of the performance area is **80*** feet. The starting line and finish line will be 50 yards from the center of the seating area. Lines will be

placed at five-yard intervals across the width of the marching surface throughout the complete performance area. There will be a get ready line 5 yards before the zero yard line. Electrical outlets are available at both the north and south sides of the performance areas. **School must provide their own extension cords.**
